PUNJAB MINERAL DEVELOPMENT CORPORATION  
COAL EXPLORATION PROJECT

Ref. No. CKW-2-9(1)/83/1120

Date 17-3-86

COMPLETION CERTIFICATE

It is certified that Punjab Mineral Development Corporation awarded a contract of drilling to M/s. Indus Valley Construction Company for coal exploration. They drilled 17 holes comprising 7086 feet 4 inches in Districts Leiah and Chakwal in about ten and a half months during 1985 and 1986. It is worth mentioning that their work was of high quality and their services rendered in the difficult areas like Salt Range were appreciable.

## PUNJAB MINERAL DEVELOPMENT CORPORATION

No. EXPL-301(10)/85/112

Dated: 8-1-1986

### PERFORMANCE CERTIFICATE

This is to confirm that Indus Valley Construction Company Limited, are working for us for the exploration of coal in the Salt Range Area of the Punjab.

Despite difficult field conditions IVCC has maintained a very satisfactory progress of work. They have in all cases, been able to recover over 95% of core while drilling through friable and thin coal seams. The performance of their crews and the administrative support is commendable.

Although they have completed the drilling of ten holes, not even once that had to drill a replacement hole. Being satisfied with the expertise and the performance of IVCC and their staff working in the Project Area, we have no hesitation in recommending IVCC for carrying out exploratory drilling for coal or any other mineral under difficult field conditions.

  
(Salim A. Malik)
